## What is TaskExchange?

TaskExchange is a platform that connects people who need help with their Cochrane reviews with people who have the time and expertise to help.

# TaskExchange

- Brings people together to get reviews done more quickly
- The place to go if you need help, or want to help out, with a review
- Provides
  - Opportunities for meaningful contributions by new Cochranites and
  - A way to overcome time & skill challenges for current Cochranites

## Jill Hayden

Associate Professor, Department of Community Health & Epidemiology, Dalhousie University; Co-convenor Prognosis Methods Group; Advisory Board Member Back & Neck Review Group

📍 Halifax, Canada

✉ Send message

## About Jill Hayden

Jill's research experience and expertise includes systematic review methods and knowledge translation, prognostic research, and musculoskeletal health. She has experience planning and delivering Cochrane Standard Author Training workshops, and teaching workshops on novel systematic review methods (e.g. prognosis reviews). She teaches a graduate course in systematic reviews/meta-analysis at Dalhousie University. She has been involved with the Cochrane Collaboration for many years, including as review author, Advisory Board Member for the Back Review Group, and co-Convenor of the Prognosis Methods Group.

## Published Reviews

Adjuvant therapy for resected pancreatic cancer  
Upper GI and Pancreatic Diseases Group — Co-author

Exercise therapy for acute non-specific low-back pain  
Back and Neck Group — Co-author

Exercise therapy for chronic low back pain  
Back and Neck Group — Co-author

**Becky Tsang**  
Technical Officer, Food Fortification Initiative, Asia Region

 Vietnam

[View my LinkedIn](#)

## About Becky Tsang

Currently a technical officer at the Food Fortification Initiative's Asia-Pacific Region. Based in Ho Chi Minh City, Viet Nam. Prior to FFI, worked at CDC's National Center for Birth Defects and Developmental Disabilities, primarily on translational research on folic acid, blood folate, and neural tube defects.

Other nutrition work includes strategy development for flour and rice fortification in Southeast Asia; enumerator training and tool development for a national micronutrient survey in Kenya; and sustainable agriculture education in San Francisco.

Current Cochrane co-author on a systematic review of the health outcomes of folate supplementation in women of reproductive age.

**Caroline Struthers**

Education and Training Manager, EQUATOR Network

I am Education and Training Manager of the EQUATOR Network and the UK EQUATOR Centre. I am interested in exploring the potential of integrating Task Exchange tasks - specifically Risk of Bias assessment - into an EQUATOR course for Academic Foundation Doctors. These student are particularly interested in learning discrete tasks related to systematic reviews and being able to demonstrating competence for their research portfolios. I am similarly interested in exploring the same principle ... [show more](#)

**Jodi Schneider**

Postdoctoral Fellow in Informatics (funded by the U.S. National Library of Medicine & National Institute of Dental and Craniofacial Research)

I am a researcher. I trained as a librarian and have a PhD in informatics. My areas of research include biomedical informatics, scholarly communication, computer-supported collaboration, Linked Data (ontologies, metadata, Semantic Web) and argumentation/evidence/disagreement in science. One of my interests is in developing technologies for improving systematic review and evidence synthesis.

## Breast Cancer

### Assistance in deciding whether or not to include 4 French studies

Skills: Inclusion/Exclusion, Translation - Linguistic: from to

Inverted T versus vertical scar incision technique for women undergoing breast reduction surgery  
We are completing a review on breast reduction techniques and there are 4 studies in French that may be eligible for inclusion into the review. We have a 1-page sheet asking questions (in yes/no answer format) that would need to be completed. If you are a French speaker with experience in different study designs (i.e. non-randomised studies), please contact us. We will also be available to answer any questions you may have.

---

### Express your interest

Send Melina a message explaining why you're the best person to help. Be specific about your skills. They'll also receive a link to your profile on TaskExchange so make sure it's up to date.
